Re: Church of St. Therese Fuel Tanks – Site Plan/Special Permit
SCTM #300-49-2-15.1

A public hearing was held on this application on October 28, 2009. No public comments were offered.

It appears the application is now complete and ready for approval based on the site plan by Reddan Surveying, Inc., dated revised April 15, 2009, and a set of plans prepared by William F. Graner, P.E., including tank grounding detail (page 1), dated May 7, 2008, proposed tank details (page 2), elevations (page 3), typical grade beam reinforcement detail (page 4), dated revised September 2, 2008.

A condition of approval should be approval from the Architectural Review Board.

MR

Planning Board Consensus

Does the Board agree the application is complete and ready for approval?
